📍 Rajkot, India

As a passion for frontend development and a solid foundation in HTML, CSS, and JavaScript, I am eager to embark on a career as a frontend developer. Through coursework, personal projects, and internships, I have honed my skills in building responsive and visually appealing web interfaces. With a keen eye for design and a commitment to staying updated with the latest web development trends, I am excited to bring fresh perspectives and enthusiasm to a dynamic team.

Node | Express | MongoDB | SQL | Git Hub

Professional Experience

Web Developer Intern

Exposys Data Lab

04/2024 – 05/2024 | Remote

During my internship at Exposys Data Lab, I developed responsive web interfaces using HTML, CSS, and JavaScript, ensuring cross-browser compatibility and optimal user experience. I also implemented server-side logic with Node.js and Express, facilitating efficient data handling and communication with the frontend. Additionally, I collaborated in an agile development environment, utilizing version control systems like Git for source code management and project tracking.

React Developer Intern

INFOLABZ IT SERVICES PVT. LTD.

06/2024 – 07/2024 | Remote

During my internship as a React Developer, I gained hands-on experience in building dynamic and interactive web applications using React.js. I worked on developing reusable components and optimizing application performance. I also collaborated with a cross-functional team, participating in code reviews, and following best practices for front-end development. This experience deepened my understanding of modern JavaScript frameworks and enhanced my skills in delivering high-quality, user-friendly interfaces.

Education

Marwadi Education Foundation Group of Institution(GTU)

B.E.- Information & Technology

09/2021 – present | Rajkot, India

7.46 CGPA

SOS- The School of Science

HSC

06/2020 – 05/2021 | Rajkot, India

77.08 PR

Shree Vandana Vidhyalay

SSC

06/2018 – 03/2019 | Kalavad, Rajkot

92.05 PR

Projects

3H-HolisticHelpHub [↗](#)

- Developed a dynamic and responsive website using React for the frontend, enhancing user experience and interface design.
- Implemented backend functionality with Node.js, ensuring efficient server-side operations and API integrations.
- Utilized MongoDB for database management, optimizing data storage and retrieval for seamless application performance.

Recipe Finder [↗](#)

- Developed a recipe finder web application using HTML, CSS, and JavaScript, allowing users to search for recipes based on ingredients and dietary preferences.
- Implemented responsive design principles to ensure optimal user experience across various devices, enhancing accessibility and usability.
- Utilized asynchronous JavaScript techniques, such as fetching data from external APIs, to dynamically display recipe results in real-time, providing users with up-to-date information and seamless browsing experience.

To-Do [↗](#)

- Designed and implemented a To-Do application with React, utilizing hooks and state management to deliver a seamless user experience.
- Created reusable and modular components to improve code maintainability and scalability.
- Integrated local storage to persist user data, ensuring tasks are saved and accessible across sessions.

Certificates

- Introduction to Git, Github and CodeSpace
- Google Analytics for Beginners
- Programming with JavaScript (Coursera)
- The Fundamentals of Digital Marketing (Google)
